

Установка и создание пустого проекта

Установить expo глобально

```
npm install -g expo-cli
```

Создать пустой проект

```
npx create-expo-app MyEmptyProject --template blank
```

Установить зависимости (возможны лишние)

```
npx expo install @react-navigation/native @react-navigation/bottom-tabs react-native-screens react-native-safe-area-context
```

```
npx expo install @expo/vector-icons
```

```
npm install axios
```

```
npx expo install react-native-pdf
```

```
npx expo install expo-web-browser
```

```
npm install expo-file-system
```

```
npx expo install expo-media-library
```

```
npx expo install react-native-gesture-handler react-native-reanimated
```

```
npx expo install expo-image
```

```
npx expo install react-native-reanimated
```

```
npx expo install react-native-gesture-handler react-native-reanimated
```

Запуск expo сервера

```
npx expo start
```

Появится qr код. Обязательна сетевая видимость сервера.
